Summary

Enthusiastic and results-driven front-end developer with hands-on experience in creating responsive and interactive web applications, currently expanding skills in backend development. Dedicated to building clean, user-focused, and visually appealing interfaces.

EXPERIENCE

Arcite Project Management Consultancy   Ernakulam, Kerala
Full-Stack developer Trainee   06/2025-Present

• Undergoing professional training in Python Full Stack development, focusing on both front-end and back-end technologies.
• Building real-world projects to strengthen technical skills and gain practical industry experience.

CodSoft   Kolkata, West Bengal
Web Development Intern   09/2024 - 10/2024

• Developed a Personal Portfolio, created a Landing Page, and built a Simple Calculator during my internship at CodSoft.

• Enhanced my web development skills and deepened my passion for the field.

• Successfully completed the internship and received a Certificate of Completion from CodSoft.

EDUCATION

Bachelor of Technology - BTech, Computer Science. CGPA – 7.69

APJ Abdul Kalam Technological University   11/2021 - 05/2025

Higher Secondary Education, Computer Science. Percentage - 85.7

C.V.K.M HSS   06/2019 – 03/2021

PROJECTS

React Weather App

https://react-weather-app-nine-nu.vercel.app/

• Built a weather application using React that fetches real-time weather data via an API. Implemented error handling to display user-friendly messages for invalid city inputs. Hosted on **Vercel**.

React Netflix-Clone App

https://netflix-clone-app-bp9p.vercel.app/

• Built a responsive Netflix Clone using React and TMDB API to display dynamic movie lists and categories. Implemented hover -based previews and integrated a modern UI with React hooks and reusable components. **Hosted on Vercel.**

Note App (Full-stack)

https://notes-full-stack-app.vercel.app/

• Developed a **full-stack Notes application** using **React** and **Django REST Framework**, implementing **JWT authentication** and complete **CRUD operations** for user-specific notes.
• Integrated frontend and backend using **Axios**, stored data in a **relational database**, designed a **responsive UI**, and deployed the frontend on **Vercel** and backend on **Render**.

EventSphere – Full-Stack Event Management System

https://event-management-system-snowy-one.vercel.app/

• Developed a full-stack event management platform using React and Django REST Framework, implementing role-based access control (RBAC) for admins, organizers, and users, along with secure JWT authentication.
• Built features for event creation, admin approvals, paid and free registrations, and QR-code based attendance verification, integrated frontend and backend using REST APIs, and deployed the frontend on Vercel and backend on Render.

SKILLS

Languages	HTML, CSS, JavaScript, Python
Frontend Tools & Frameworks	React, Vite, Bootstrap, Tailwind, CSS
Backend Technologies & APIs	Django, Django REST Framework, RESTful APIs, JWT Authentication
Version Control & Collaboration	Git, GitHub, GitHub Desktop
Deployment & Hosting	Vercel, GitHub Pages, Render

CERTIFICATES

• Responsive Web Design Certification - freeCodeCamp, February 2024.

• Project Based Virtual Internship Certificate - CodSoft, October 2024.

• JavaScript Algorithms and Date Structures (Beta) Certification - freeCodeCamp, December 2024.
